DRONE

Drone investigates the human consequences of the US drone war. Through unique access to voices on both sides of the drones the film follows drone victims in Waziristan as well as drone pilots who struggle to come to terms with the new warfare.

The Queen of Silence

10 years old Denisa is an outcast in many ways. She is an illegal citizen of a gypsy camp in Poland, a woman in a patriarchal gypsy community and most of all – she doesn't speak as no one has ever diagnosed her with severe hearing disabilities. She lives in a world of her own, full

of rhythm and dance, imitating the glamorous women from the Bollywood DVDs she found in a nearby garbage. Dancing she can be anyone she wants, even a queen, and express what she can't say – joy, sadness and fear.
